

**This tutorial is only to be used AFTER the previous guide did not resolve your problem.**

1. Go to the folder where you have saved the files you downloaded from [www.futurumshop.nl/xand/downloads](http://www.futurumshop.nl/xand/downloads).
2. Find the file named “ANT\_LibUsb.inf”

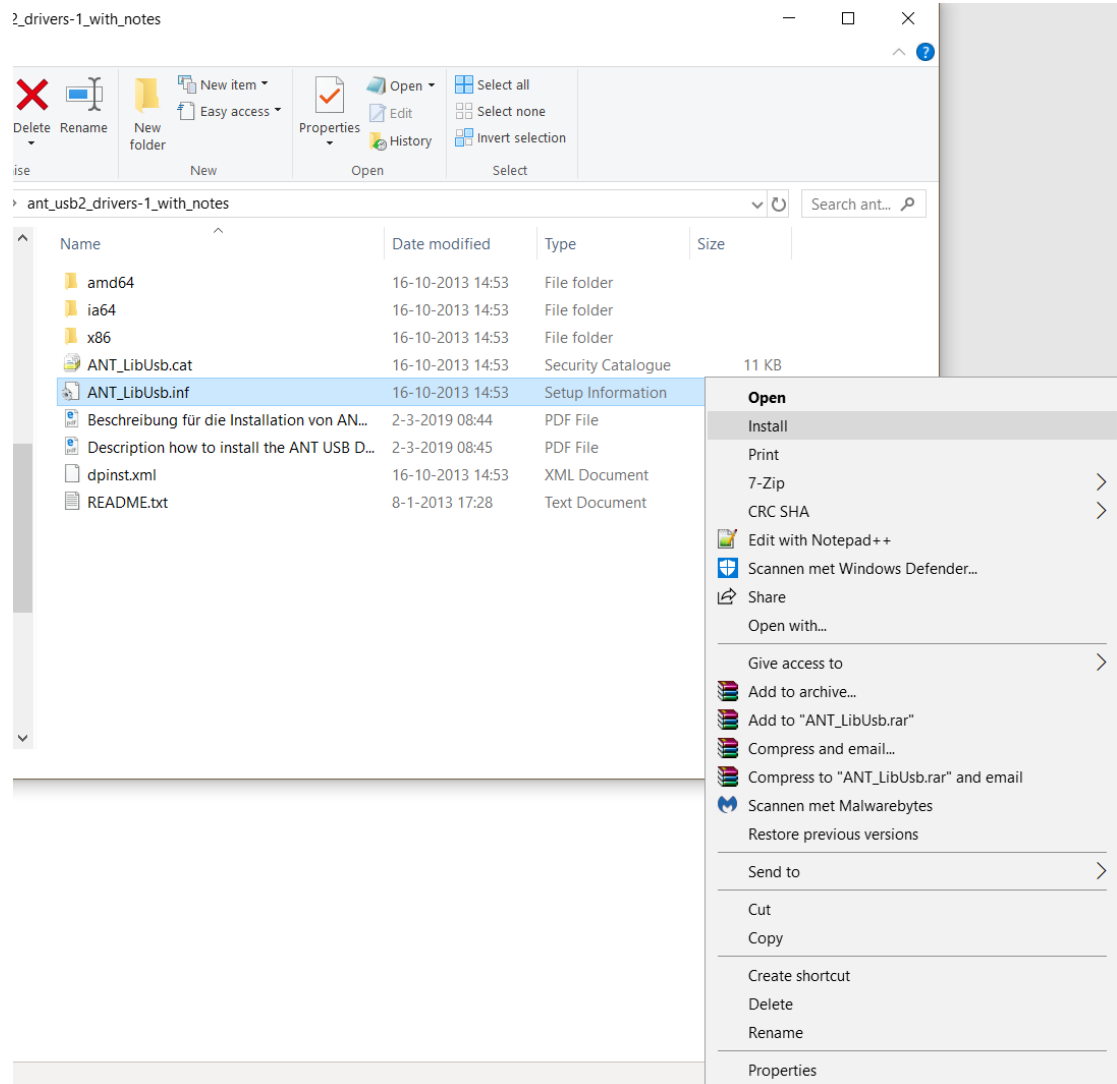

It is possible that the filename does not have “.inf” at the end. If this is the case please ensure that the file icon, and the file size are the same as displayed above. You can find the file size in the lower left corner of the windows explorer window.

3. Right click on the file “ANT\_libUsb.inf”

4. Press install

5. Accept the warning windows gives asking whether you are sure you wish to install the file.

6. You are now given a prompt indicating the installation has completed successfully.

7. **IMPORTANT!** Make sure you restart your PC to complete the driver installation

8. The installation is now complete, and you can safely delete the downloaded folders.
